#### 1. Qualitative information on quarterly financial results

#### (1) Explanation of business results

During the third quarter consolidated cumulative period, the global economy saw a trend towards recovery as restrictions on economic activities due to the impact of the COVID-19 pandemic were lifted. However, the pace of recovery slowed due to prolonged inflation and monetary tightening in various European and American countries. Additionally, heightened uncertainty about the future arose due to the prolonged Russia-Ukraine issue and escalating tensions in the Middle East, among other geopolitical risks.

In this environment, the Group has set a management vision of "Create new value through transformation and aim for sustainable growth by becoming a partner to our customers " in the medium-term management plan announced on May 31, 2021, and is proceeding with the transition to a new business model. We have been promoting the "Takamiya Platform," announced on May 31, 2023, which provides high-value-added services to customers who purchased the Iq System. We have been expanding functionalities, including "OPERA," an interface that allows access to all services provided by the Takamiya Platform online, and "Iq-Bid," a digital marketplace where construction temporary equipment can be freely bought and sold. Furthermore, the user accounts for the operational management service of the Iq System, "OPE-MANE," have also increased.

As a result, for the Third quarter of the current fiscal year, the Company posted net sales of 32,183 million yen (up 4.9% year-on-year), operating income of 2,405 million yen (up 49.7% year-on-year), ordinary income of 2,526 million yen (up 46.5% year-on-year), and net income attributable to owners of the parent of 1,727 million yen (up 46.9% year-on-year).

Operating results by segment are as follows.

#### (Sales business)

In the temporary equipment division, there is high interest in "Takamiya Platform," and while there have been inquiries for new procurement, replacements, and additional purchases, concerns about construction delays due to soaring material prices, labor shortages, etc., as well as uncertainties about the future, have led to continued postponement of purchase timing and a trend towards rental usage, resulting in sales being lower than expected. On the other hand, there have been large-scale projects in the second-hand sales, including "Iq-Bid," contributing to an improvement in profit margins.

In divisions other than the temporary equipment division, sales decreased as large-scale solar projects, which had been ongoing since the previous period, concluded.

As a result, sales were 9,053 million yen (down 4.8% year-on-year) and operating income was 1,113 million yen (up 34.1% year-on-year).

### (Rental Business)

In the construction field, rental demand remains high, mainly for maintenance and repair work in the Tokyo metropolitan area, and in the civil engineering field, the number of construction sites is currently increasing, and the rental volume of temporary construction equipment remained at a high level compared to the previous year. We have also expanded our equipment lineup and worked to establish a stable supply system for Takamiya Platform users.

As a result, sales were 20,473 million yen (up 13.2% year-on-year) and operating income was 2,671 million yen (up 41.1% year-on-year).

### (Overseas Business)

In the manufacturing field, the procurement of raw materials and parts has not been significantly affected, and both HORY VIETNAM (Vietnam) and Hory Korea (South Korea) are steadily shipping temporary construction equipment to Japan.

In Hory Korea, with overseas sales departments, concerns about the global economic downturn led to a similar trend in rental usage as observed in Japan, particularly in the temporary division. Additionally, sales of solar-related materials decreased not only in the temporary division but also in other divisions. As a result, sales revenue decreased.

At DIMENSION-ALL INC. (Philippines), while economic activity is showing signs of recovery, the impact of delays in large-scale projects and deferment of commencements resulted in performance remaining at a similar level to the same period of the previous year.

As a result, sales were 6,192 million yen (down 8.6% year-on-year) and operating income was 328 million yen (up 0.1% year-on-year).

#### (2) Explanation of financial condition

Total assets at the end of the current Third quarter consolidated accounting period were 68,022 million yen, an increase of 5,272 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase of 683 million yen in Merchandise and finished goods, and an increase of 3,532 million yen in Assets for rent, net.

Total liabilities amounted to 45,958 million yen, an increase of 3,730 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase of 1,669 million yen in Short-term loans payable, and an increase of 2,082 million yen in Long-term loans payable (including Current portion of long-term loans payable).

Total net assets amounted to 22,064 million yen, an increase of 1,541 million yen from the end of the previous fiscal year. This was mainly due to an increase of 1,075 million yen in retained earnings due to Profit attributable to owners of parent of 1,727 million yen and dividends of surplus of 652 million yen.

#### (3) Explanation of consolidated financial forecasts and other forward-looking statements

Regarding the consolidated performance forecast, there have been no changes to the full-year consolidated performance forecast as stated in the "Summary of Consolidated Financial Results for the Fiscal Year Ended March 31, 2023" announced on May 11, 2023.
