Summary of 1Q FY Ending March 31, 2018

1Q eventually resulted in higher level than as initially expected, but rental business and overseas business were recognized as having challenges.

Rental Business	Hory Korea Co.,Ltd.
	
<p>Although large-scale investment in assets for rent has passed a peak, depreciation of assets for rent still remains high. There are some delays in public works and therefore the Company endeavors to take more orders.</p>	<p>Since the second half of the previous FY, full-swing leverage has already been started in order to reconstruct the management regime. The Company continues to put its efforts to regime reconstruction including settlement of allowance for doubtful accounts receivable-trade.</p>

Factors which caused net sales being less than as planned at the beginning of the period

(Unit : million yen)

【 Sales business 】

- Sales of the Iq System maintained steady growth.
- General-purpose products such as AL-SPEEDER (baseboard) and clamp also took the lead.

【 Rental business 】

- As well as the Iq System, other building equipment maintained steady growth.
- There are some delays in commencement of public works. However, such matters could be covered by order-taking of building and renovation sites.

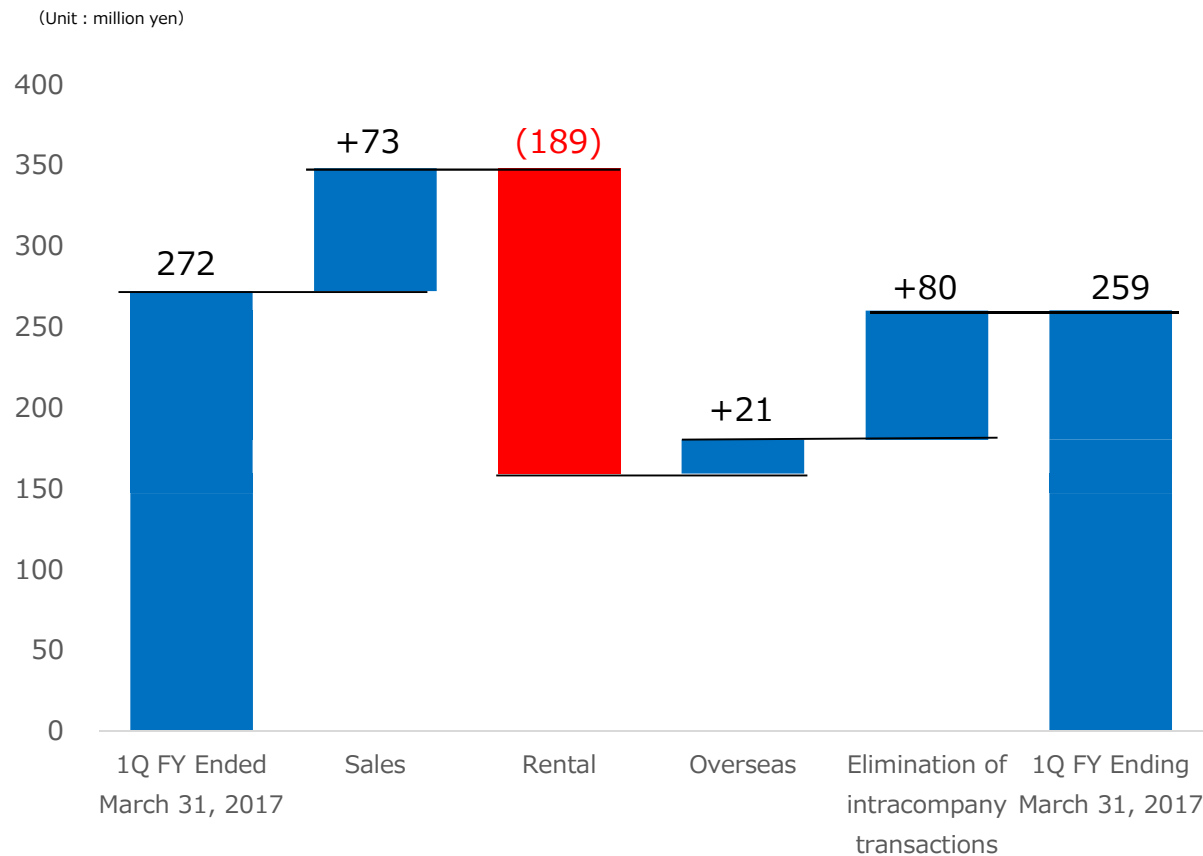

【 Overseas Business 】

- Internal transactions slightly decreased, but external (local) transactions have steadily been increasing.

【 Elimination of intracompany transactions 】

- Inter-segment transactions decreased as compared to the previous year (revenue effect).

Factors which caused operating income being less than as planned at the beginning of the period

【 Sales business】

- Profitability got higher year-on-year thanks to the Iq System, as well as revenue effect, sales of assets for rent, and efforts towards cost reduction.

【 Rental business 】

- Continuously increased burden of depreciation due to the proactive investment in assets for rent prior to the current term caused decrease as compared to the previous FY.
- Subrental and other factors contributed to lower profitability.

【 Overseas Business 】

- Management regime has been gradually put in place. DIMENSION-ALL (Philippines) and HORY VIETNAM have turned to positive figures
- Hory Korea has unfortunately got into red due to allocating allowance for doubtful accounts receivable, although its management regime has been gradually put in place.

【 Elimination of intracompany transactions 】

- Amount of inter-segment offsetting decreased because unrealized portion of depreciation of assets for rent purchased from Hory is included (leverage effect).

* Segment sales and profit include those from internal transactions.

- Large-scale investment in assets for rent prior to the current term had some impact on cost-push. Lower profitability ratio due to subrental also had some impact on decreased profit as compare to the previous year.
- Order-taking of renovation projects showed good performance in both building and civil engineering works. There appeared some delay in public works and large civil engineering projects, so order-taking activities were enhanced so that utilization of civil engineering equipment could be retained.

Rental Business : Change in Shipment Value of Rental Equipment

Amount of returned equipment at the end of the previous term was greater than as initially expected, and out-going shipment (rental amount) got a late start at the beginning of the current term.

* Shipment value of rental equipment represents the volume of leased assets (converted into purchase price of new items) shipped as rental. The Company does not disclose figures of shipment value of rental equipment.

- In Korea, reconstruction of management regime continued. Preparation for rental business and settlement of allowance for doubtful account receivable contributed to operating loss.
- In the Philippines enhanced management control could provide positive figure, but considerable influence by the situations in Korea caused segment operating loss.

Overseas business

Sales Ratio by Segment

* "Sales Ratio by Segment" is based on net sales before inter-segment elimination.

Hory Korea Co., Ltd.

- Further strengthening management regime continues.
- Preparation for rental business and allocating allowance for doubtful account, etc. contributed to operating loss in the 1Q.

HORY VIETNAM Co., Ltd.

- Products directed to Japanese markets (clamp, etc.) maintained steady growth.

DIMENSION-ALL INC. (The Philippines)

- Enhanced management control regime helped improvement in credit administration and growth of order-taking.
- Responding to local demands, operating income registered surplus.

Future prospects and policies

Sales

**More repeated order for the next-generation scaffolding "Iq System".
Enhanced sales activities targeted at new customers.**

**First installation of weather-resistant pipe house for agriculture
business. Increasing number of quotation and order-taking nationwide.**

Rental

**Delay in public investment and large civil engineering projects.
Maintaining utilization rate of equipment on short-term projects.**

**Maintaining demands for renovation works at steady growth both in
building and civil engineering, and high utilization rate.**

**Greater demands around Tokyo metropolitan area in view of the
Olympic Games in 2020.**

Overseas

**By reviewing management control regime of overseas subsidiaries,
improved performance could be anticipated.**

Enhanced sales activities of temporary equipment in ASEAN countries.
