5. Sales Ratio by Segment

Increased sales in the overseas business segment is mainly due to proactive investment in equipment and increased revenues of the subsidiary in Korea.

6.1 Per Quarter

^{*}Segment sales and profit include those from internal transactions.

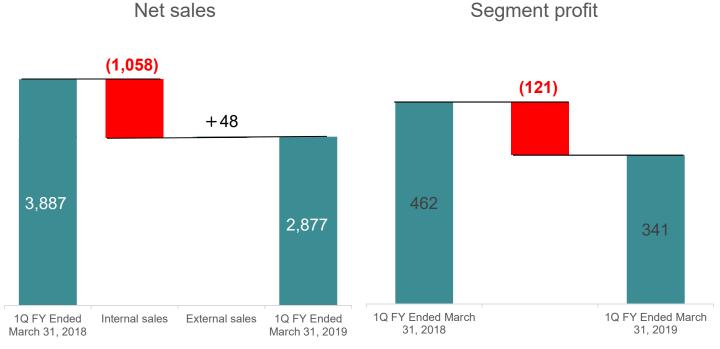

6.2 Comparison with the previous year

Net sales

Decreased by 1,010 million yen. Inter-segment transactions (internal sales) decreased because of merging Hory Corp., a former subsidiary.

Segment profit

Decreased by 121 million yen.
This is due to decreased revenues.

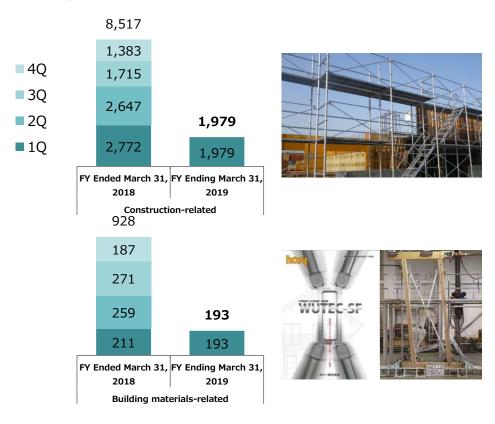

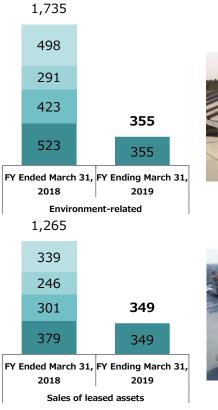

(Unit: million yen)

* "Sales Ratio by Segment" is based on net sales before inter-segment elimination.

7.2 Comparison with the previous year

Net sales

Increased by 49 million yen. However, excluding net sales of "NAKAYA KIZAI Co., Ltd." which was acquired during the previous term turns it to decrease in revenues by 28 million yen.

Segment profit

Increased by 77 million yen. Depreciation of assets for rent remained mostly level, and revenues from rental fees increased, whereas construction sales and discount decreased. SG&A expenses slightly increased but eventually resulted in increased revenues.

* "Sales Ratio by Segment" is based on net sales before inter-segment elimination.

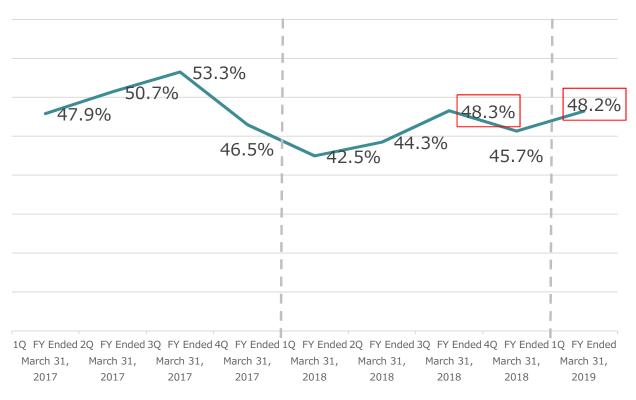

August 28, 2018 Page. 12

7.3 Trend of average equipment utilization rates

Almost same level as the peak in the previous term

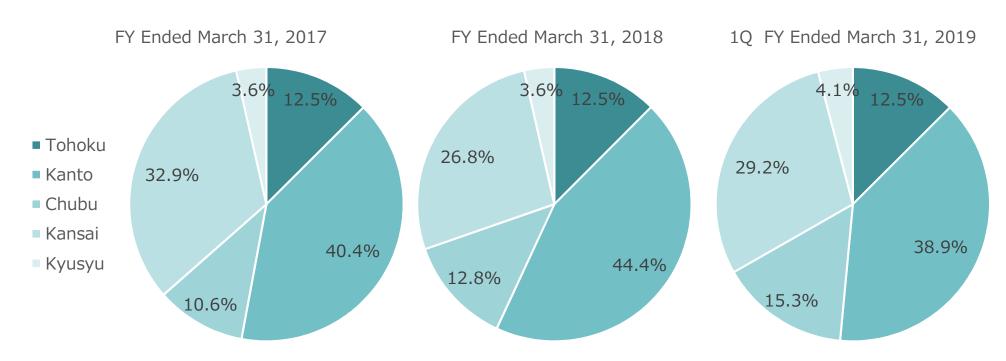

It registered 48.2%, almost same level as the peak achieved in the 3Q of FY03/2018. Assuming same trend as usual, it is expected that the figure would continue to rise until the next 3Q. However, there is some risk of downturn, so we shall carry out our sales activities without any optimistic outlook.

7.4 Ratio of Sales by Area

Proportion of Kanto block decreased due to merging consolidated subsidiaries.

*NOTE: Chugoku/Shikoku block is included in Kansai block.

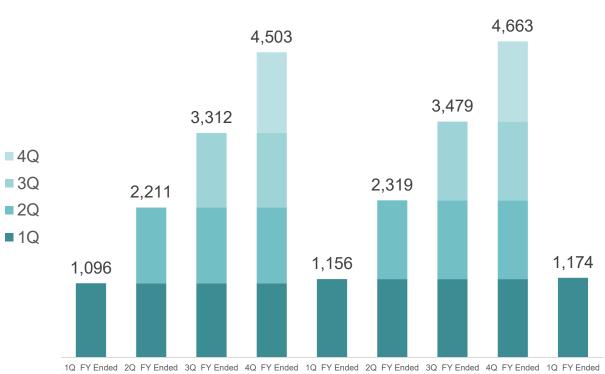

August 28, 2018 Page.14

7.5 Trend of depreciation

It will peak during the current term.

Depreciation of asset for rent (8 years straightline) that predominantly accounts for the overall depreciation has been in an upward trend due to introduction of the "Iq System" since 2013, as well as investment in related materials.

7.6 Trend of average utilization rates of the Iq System

Steadily high level of utilization

Higher level of utilization again exceeding 60% could be maintained during the current 1Q, as compared to any other equipment.

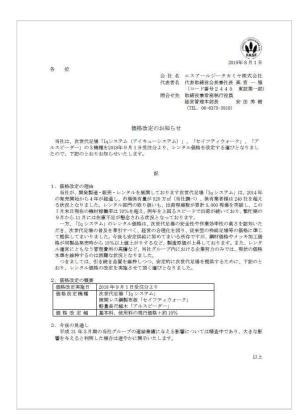

7.7.1 Notice of price revision

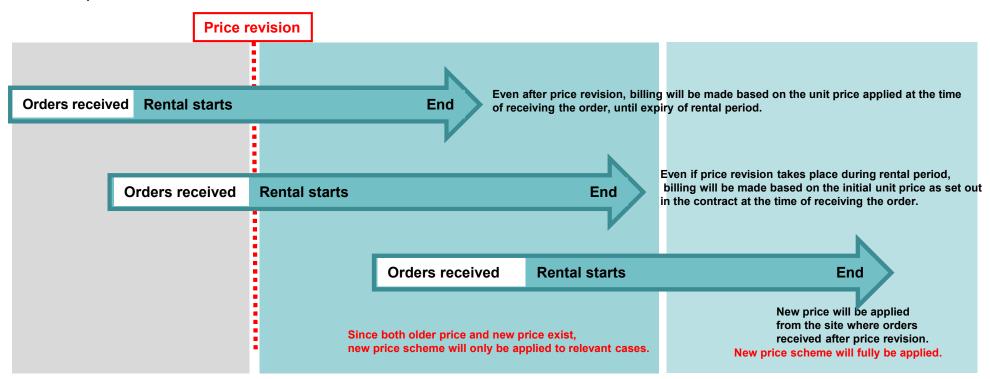

Overview of price revision

Price revision date	From those ordered on Sep. 1, 2018
Price revised product	Next-generation scaffolding "Iq System" Gapless stainless-steel footplate "Safety Walk" Light & long baseboard "AL-SPEEDER"
Price revision width	Current basic charge / usage charge are increased by about 10%.
Reason for Price Revision	Steel price and plate processing charge have increased by more than 15% as compared to the time of launching the next-generation scaffolding, "Iq System", leading to higher manufacturing cost. In addition, it became difficult for us to maintain the current price level solely by corporate efforts within our Company group because of, for example, rise in administrative expenses associated with rental business operation. For these reasons, we decided to implement revision to the rental prices in order to provide our next-generation scaffolding stably while still maintaining continuously high quality.

8. Overseas business

8.2 Comparison with the previous year

Net sales

Increased by 849 million yen. Solar-related business at Hory Korea has recovered.

Segment profit

Increased by 849 million yen. Despite increase in revenues, proactive investment in equipment at Hory Korea and DAI aiming at business expansion for the future contributed to increase both in depreciation of asset for rent and SG&A expenses, resulting in lower profit.

* "Sales Ratio by Segment" is based on net sales before inter-segment elimination.
