 6. The Company has entered into an agreement with Kouji Shimokawa and Noboru Furuichi to limit their liability under Article 423, paragraph (1) of the Companies Act, pursuant to Article 427, paragraph (1) of the same Act. The limit amount of the liability for compensation under said contract is determined to be the minimum liability amount stipulated in Article 425, paragraph (1), of the Companies Act. If Mr. Shimokawa and Mr. Furuichi are reelected, the Company intends to continue said contract with each of them.
 7. The Company has entered into a directors and officers liability insurance policy, which is regulated under Article 430-3, paragraph (1), of the Companies Act, with an insurance company. The scope of insureds under said insurance policy includes Directors (including outside Directors), and the insureds do not bear any of the premiums. The insurance policy covers an insured's losses and such costs as related litigation expenses incurred from claims for damages arising from unreasonable acts performed based on their position. However, as a measure to ensure that the proper execution of duties of officers, etc. is not impaired, losses such as those resulting from bribery and other criminal acts and those incurred by officers themselves who intentionally committed illegal acts are not covered. If each candidate is elected and assumes the office as Director, each candidate will be included as an insured in the policy. Moreover, the Company intends to renew the policy when the next renewal is due.

In addition, although Ms. Kato has not been involved in corporate management other than as an outside officer, the Company has judged that she is capable of appropriately fulfilling her duties as an outside Director of the Company for the above-mentioned reasons.</p>			

- Notes:
1. There is no special interest between any of the candidates and the Company.
 2. Yoshihiro Sakatani, Teiji Joko, and Sachie Kato are candidates for outside Director.
 3. The Company has submitted notification to Tokyo Stock Exchange, Inc. that Yoshihiro Sakatani, Teiji Joko, and Sachie Kato have been appointed as independent officers as provided for by the aforementioned exchange. If Mr. Sakagami, Mr. Joko, and Ms. Kato are elected, the Company plans for their appointment as independent officers to continue.
 4. Yoshihiro Sakatani and Teiji Joko are currently outside Directors who are Audit and Supervisory Committee Members of the Company, and their terms of office will be two years at the conclusion of this meeting. Notably, both of them have served as non-executive officers (Corporate Auditors) of the Company.
 5. Sachie Kato is currently an outside Director who is an Audit and Supervisory Committee Member of the Company, and the term of office of Ms. Kato will be two years at the conclusion of this meeting.
 6. The Company has entered into an agreement with Yoshihiro Sakatani, Teiji Joko, and Sachie Kato to limit their liability under Article 423, paragraph (1) of the Companies Act, pursuant to Article 427, paragraph (1) of the same Act. The limit amount of the liability for compensation under said contract is determined to be the minimum liability amount stipulated in Article 425, paragraph (1), of the Companies Act. If Mr. Sakatani, Mr. Joko, and Ms. Kato are reelected, the Company intends to continue said contract with each of them. In the event that the election of Takashi Masuno is approved, the Company intends to conclude the same contract with him limiting his liability.
 7. The Company has entered into a directors and officers liability insurance policy, which is regulated under Article 430-3, paragraph (1), of the Companies Act, with an insurance company. The scope of insureds under said insurance policy includes Directors (including outside Directors), and the insureds do not bear any of the premiums. The insurance policy covers an insured's losses and such costs as related litigation expenses incurred from claims for damages arising from unreasonable acts performed based on their position. However, as a measure to ensure that the proper execution of duties of officers, etc. is not impaired, losses such as those resulting from bribery and other criminal acts and those incurred by officers themselves who intentionally committed illegal acts are not covered. If each candidate is elected and assumes the office as Director, each candidate will be included as an insured in the policy. The Company intends to renew the policy when the next renewal is due.

Proposal No. 4 Introduction of Performance-Linked Share-Based Remuneration Plan for Directors

1. Reasons for the proposal and why it is justified

With this proposal, the Company asks for approval to introduce a new performance-linked share-based remuneration plan (Board Benefit Trust-Restricted Stock (BBT-RS), hereinafter referred to as the “Plan”) for the Company’s Directors (excluding Directors who are Audit and Supervisory Committee Members and outside Directors among the other Directors, applicable to the rest of this proposal unless otherwise specified) and Executive Officers (here and hereinafter collectively referred to as “Eligible Directors”).

The aim of this proposal is to enhance awareness among Eligible Directors toward contributing to improving the Company’s medium- and long term performance and increasing its corporate value by clarifying the link between Eligible Directors’ remuneration and the Company’s performance and share value and making Eligible Directors share with shareholders not only the benefits enjoyed when the share price rises, but also the risks that arise when the share price falls. If this proposal is approved as written, it would align with the policy for determining the details of remuneration, etc. for individual Company Directors (see below), which will be resolved by the Company’s Board of Directors at the conclusion of this Ordinary General Meeting of Shareholders. Accordingly, the Company considers the content of this proposal to be justifiable. Additionally, the Company’s Nomination and Compensation Committee has submitted a report agreeing that introducing the Plan is justifiable given the objectives thereof, the benefits of incentivizing improvement of performance over the medium to long-term, and the like.

With this proposal, the Company asks for the approval of specific details and methods for calculating amounts of remuneration, etc. to remunerate the Company’s Directors according to the Plan, separately from the amount of Director remuneration approved at the 54th Ordinary General Meeting of Shareholders held on June 23, 2022 (up to ¥500 million per year (including up to ¥50 million per year for outside Directors), not including the employee portion of salaries). The Company wishes to leave the details of the Plan to the Board of Directors within the bounds set out in 2. below.

At the 54th Ordinary General Meeting of Shareholders held on June 23, 2022, shareholders approved an amount of remuneration up to ¥150 million per year in remuneration-type share options for Directors, separate from the aforementioned amount of cash remuneration; as conditions for adopting this proposal, the Company will abolish this amount of remuneration for remuneration-type share options and refrain from granting new remuneration-type share options in the future.

If Proposal No. 2 is adopted as written, seven Directors will be eligible for the Plan.

Notably, the Audit and Supervisory Committee has expressed its view that introducing the Plan is justifiable given the objectives thereof and that the process for determining this proposal included a report from the Nomination and Compensation Committee.

2. Specific details and methods for calculating amounts of remuneration, etc. under the Plan

(1) Overview of the Plan

The Plan is a performance-linked share-based remuneration plan under which the Company’s shares purchased with cash contributions from the Company are acquired through a trust (hereinafter, the trust defined under the Plan is referred to as the “Trust”), and the Company’s shares and cash amounts corresponding to the market value of the Company’s shares (hereinafter referred to as “Shares and Cash”) are provided to Eligible Directors through the Trust according to the Procedure for Providing Shares to Officers set out by the Company. Notably, under the Plan, two types of payments are made to Directors—ST payments and LT payments—and only LT payments are made to Executive Officers. Below are overviews of each type of payment.

(i) ST payments

Regarding ST payments, in principle, Directors receive payments in the form of the Company’s shares at a defined time each year, and payments in the form of cash amounts corresponding to the market value of the Company’s shares upon retiring from office. When receiving ST payments in the form of the Company’s shares (hereinafter referred to as “ST Shares”) while they are in office, Directors must conclude a share transfer restriction agreement with the Company as described in 3. below before

receiving said payment of ST Shares. The transfer restriction agreement prohibits Directors from disposing of ST Shares received while they are in office by transfer or other means until they retire from office.

(ii) LT payments

Regarding LT payments, in principle, Eligible Directors receive payments in the form of the Company's shares at a defined time at the end of each Defined Period (defined in (4) below), and payments in the form of cash amounts corresponding to the market value of the Company's shares upon retiring from office. When receiving LT payments in the form of the Company's shares (hereinafter referred to as "LT Shares") while they are in office, Eligible Directors must conclude a share transfer restriction agreement with the Company as described in 3. below before receiving said payment of LT Shares. The transfer restriction agreement prohibits Eligible Directors from disposing of LT Shares received while they are in office by transfer or other means until they retire from office.

(2) Eligibility for the Plan

Directors (Directors who are Audit and Supervisory Committee Members and outside Directors among the other Directors are ineligible for the Plan) and Executive Officers

(3) Trust period

From August 2024 (scheduled) until the Trust ends (Notably, there is no specific end date to the trust period for the Trust; the Trust continues as long as the Plan continues. The Plan will end when the Company's shares are delisted, the Procedure for Providing Shares to Officers is abolished, or the like.)

(4) Trust amount

As conditions for adopting this proposal, the Company will introduce the Plan for the three fiscal years from the fiscal year ending March 31, 2025 to the fiscal year ending March 31, 2027 (hereinafter, this period of three fiscal years is referred to as the "Initial Defined Period," with the Initial Defined Period and periods lasting three fiscal years starting after the Initial Defined Period has elapsed referred to using the inclusive term "Defined Period"), and Defined Periods thereafter, and contribute the following cash amounts to the Trust to fund the acquisition of the Company's shares by the Trust in order to pay Shares and Cash to Eligible Directors.

First, when the Trust is created (August 2024 (scheduled)), the Company will create the Trust by contributing the cash amount equivalent to the estimated amount of funds needed for the Initial Defined Period. The upper limit of points to be granted to Eligible Directors under the Plan is 1,100,000 per three fiscal years as defined in (6) below; therefore, when the Trust is created, the Company will contribute an amount reasonably estimated as necessary to require the upper limit of 1,100,000 shares to the Trust in consideration of the closing price of the Company's shares at the end of regular trading hours of the Tokyo Stock Exchange immediately prior. For reference, using the closing price of ¥481 on May 23, 2024, the required amount of funds would be roughly ¥529 million.

The Company will make additional contributions to the Trust after the Initial Defined Period has elapsed and until the Plan ends—in principle, amounts deemed necessary for the Trust to acquire the Company's shares in advance are based on reasonable estimates of the required number of shares to pay Eligible Directors under the Plan for each Defined Period. However, when making these additional contributions, if any of the Company's shares (the Company's shares corresponding to the number of points granted to Eligible Directors for each Defined Period immediately prior, excluding outstanding payments to Eligible Directors) or cash (hereinafter referred to collectively as "Remaining Shares and Cash") remain in the Trust, they will be allocated to the funds for payments under the Plan for subsequent Defined Periods; the Company will factor in Remaining Shares and Cash when calculating amounts for additional contributions. The Company will make proper and timely disclosures when determining additional contributions.

Note: The amounts of money the Company actually contributes to the Trust correspond to estimated amounts for trust fees and other expenses in addition to the aforementioned funds for acquiring shares.

(5) Method of acquisition of the Company's shares and number of shares acquired by the Trust

The Trust will acquire the Company's shares by purchasing them through the stock exchange using funds contributed as described previously in (4) or by receiving a portion of shares bought back by the Company. Given that the upper limit of points to be granted to Eligible Directors is 1,100,000 per three fiscal years

as defined in (6) below, the upper limit of the number of the Company's shares to be acquired by the Trust for each Defined Period is 1,100,000. The Company will make proper and timely disclosures as to the details of acquisitions of the Company's shares by the Trust.

(6) Upper limit of Shares and Cash to be paid to Eligible Directors

Regarding ST payments to Directors, each fiscal year, Directors are granted a fixed number of points commensurate with their position and other factors based on the Procedure for Providing Shares to Officers. Regarding LT payments to Eligible Directors, each fiscal year, Eligible Directors are initially granted a fixed number of points commensurate with their position and other factors based on the Procedure for Providing Shares to Officers. In principle, the points initially granted to Eligible Directors each fiscal year for LT payments are adjusted using multipliers corresponding to the level of achievement of performance targets and the like at the end of each Defined Period.

The upper limit of the total number of points to be granted to Eligible Directors per three fiscal years (for the number of points for LT payments, the number of points after the aforementioned adjustments) is 1,100,000 (including 920,000 for directors). The Company determined this upper limit after comprehensive consideration of the current level of officer compensation, trends and future outlook for the number of Eligible Directors, and other factors. Accordingly, the Company deems this upper limit to be justifiable.

When paying Shares and Cash as described in (7) below, the number of points to be granted to Eligible Directors (for the number of points for LT payments, the number of points after the aforementioned adjustments) is converted at a rate of one of the Company's shares per point (Notably, if splits, bonus issues, reverse splits, or the like pertaining to the Company's shares occur after this proposal is approved, the upper limit of the number of points, numbers of points previously granted, and conversion rates will be adjusted accordingly in response to percentages thereof.).

The number of votes for the number of shares corresponding to the upper limit of the number of points to be granted to Directors per three fiscal years (for the number of points for LT payments, the number of points after the aforementioned adjustments) is 9,200, which constitutes roughly 1.98% of the total number of votes for the total number of shares issued (465,608 as of March 31, 2024).

The standard number of points for Directors for payments of Shares and Cash as described in (7) below is managed by distinguishing those for ST payments from those for LT payments; in principle, it is the number of points (for the number of points for LT payments, the number of points after the aforementioned adjustments) to be granted to Eligible Directors by the time beneficiary rights described in (7) below are finalized (hereinafter referred to as the "Final Number of Points").

(7) Specific methods for calculating payment of Shares and Cash and amounts of remuneration, etc.

In principle, Directors who fulfill the beneficiary requirements undergo the requisite beneficiary finalization procedure to receive ST payments from the Trust at a defined time each year and LT payments from the Trust at a defined time at the end of each Defined Period in the form of the number of the Company's shares corresponding to the Final Number of Points determined as described previously in (6). In principle, Directors who fulfill the requirements set out in the Procedure for Providing Shares to Officers receive cash payments equivalent to the market value of the Company's shares when they retire from office at a fixed percentage instead of the Company's shares. In some cases, the Company's shares may be sold from the Trust to make these cash payments.

Additionally, in principle, Executive Officers who fulfill the beneficiary requirements undergo the requisite beneficiary finalization procedure to receive payments from the Trust at a defined time at the end of each Defined Period in the form of the number of the Company's shares corresponding to the Final Number of Points determined as described previously in (6). In principle, Executive Officers who fulfill the requirements set out in the Procedure for Providing Shares to Officers receive cash payments equivalent to the market value of the Company's shares when they retire from office at a fixed percentage instead of the Company's shares. In some cases, the Company's shares may be sold from the Trust to make these cash payments.

When receiving payments in the form of the Company's shares while they are in office, Eligible Directors must conclude a share transfer restriction agreement with the Company as described in 3. below before receiving said payment of the Company's shares. The transfer restriction agreement prohibits Eligible Directors from disposing of the Company's shares received while they are in office by transfer or other means until they retire from office.

Additionally, Eligible Directors who have been granted points cannot acquire all or a portion of the rights to receive payments if the General Meeting of Shareholders or the Board of Directors pass a resolution to dismiss them, if they retire from office during their term because they committed certain illegal actions, if they committed inappropriate actions that damage the Company while in office, or the like.

When points are awarded, the amount of remuneration, etc. received by Directors is based on the total number of the points granted to the Directors multiplied by the book value per share of the Company's shares owned by the Trust (Notably, if splits, bonus issues, reverse splits, or the like pertaining to the Company's shares occur, the amount will be adjusted accordingly in response to percentages thereof.). Additionally, when points for LT payments are adjusted according to the Procedure for Providing Shares to Officers or when deemed justifiable in cases where exceptional cash amounts are to be paid, the amount of remuneration, etc. received by Directors will be reasonably adjusted accordingly.

(8) Exercising voting rights

Voting rights for the Company's shares in the Trust account will not be exercised uniformly under direction of the trust administrator. Depending on the method, the exercise of voting rights for the Company's shares in the Trust account is designed to ensure neutrality toward the Company's management.

(9) Treatment of dividends

Dividends for the Company's shares in the Trust account are received by the Trust and allocated to cash for acquiring the Company's shares, trust fees for trustees of the Trust, and the like. Notably, when the Trust ends, dividends and the like remaining in the Trust will be paid proportionally to the number of points held by each Eligible Director in office at that time according to the Procedure for Providing Shares to Officers.

(10) Treatment when the trust ends

The Trust will end when the Company's shares are delisted, the Procedure for Providing Shares to Officers is abolished, or the like.

The plan for the Company's shares among the remaining assets in the Trust when the Trust ends calls for the Company to acquire the shares at no charge, and for the Board of Directors to pass a resolution to retire the shares. The cash among the remaining assets in the Trust when the Trust ends will be paid to the Company after subtracting the cash to be paid to Eligible Directors as described previously in (9).

3. Overview of share transfer restriction agreement for the Company's shares paid to Eligible Directors

When receiving payments in the form of the Company's shares while they are in office, Eligible Directors must conclude a share transfer restriction agreement that includes the following content as an outline (hereinafter referred to as the "Share Transfer Restriction Agreement") with the Company before receiving said payment of the Company's shares (Eligible Directors must conclude the Share Transfer Restriction Agreement as a condition for receiving the Company's shares.). However, there are cases in which Eligible Directors may receive payment in the form of the Company's shares without concluding the Share Transfer Restriction Agreement, such as when they have already retired when the time for the payment comes.

(i) Details of transfer restrictions

Eligible Directors may not transfer, create a security interest in, or otherwise dispose of the Company's shares paid to them from the day they receive the shares until the day they retire from all positions equivalent to officer of the Company

(ii) Free acquisition by the Company

The Company acquires the corresponding shares at no charge when certain illegal acts have been committed or the requirements for lifting the transfer restrictions described in (iii) below have not been fulfilled

(iii) Lifting of transfer restrictions

Transfer restrictions are lifted when Eligible Directors retire from all positions equivalent to officer of the Company for justifiable reasons or retire from office due to their death

(iv) Treatment during reorganization, etc.

If, during the transfer restriction period, matters relating to a merger agreement in which the Company is the disappearing company or other reorganization, etc. are approved at the Company's General Meeting of

Shareholders or the like, the Company shall lift the transfer restrictions immediately prior to—on the business day before—the date on which the reorganization, etc. becomes effective by resolution of the Board of Directors of the Company.

To prevent Eligible Directors from transferring, creating a security interest in, or otherwise disposing of the Company’s shares subject to transfer restrictions under the Share Transfer Restriction Agreement during the transfer restriction period, the plan calls for the shares to be managed in dedicated accounts opened by Eligible Directors at the securities company designated by the Company.

Additionally, the method for expressing intentions and giving notifications in the Share Transfer Restriction Agreement, the method for amending the Share Transfer Restriction Agreement, and other matters to be determined by the Board of Directors shall be laid out in the Share Transfer Restriction Agreement.

- (i) The Company will establish the Procedure for Providing Shares to Officers within the scope of the framework approved under this proposal.
- (ii) The Company will entrust cash within the scope approved under this proposal.
- (iii) The Trust will acquire the Company's shares by purchasing them through the stock exchange using cash contributed as described previously in (ii) or by receiving a portion of shares bought back by the Company.
- (iv) Eligible Directors must conclude a transfer restriction agreement that includes restrictions of transfers and other forms of disposition while they are in office, a clause for certain free acquisitions by the Company, and the like with the Company for the Company's shares received while they are in office.
- (v) The Company will grant points to Eligible Directors based on the Procedure for Providing Shares to Officers.
- (vi) The Trust will not exercise voting rights for the Company's shares in the Trust account under the direction of the trust administrator, who is independent from the Company.
- (vii) The Trust will pay the Company's shares commensurate with the number of points granted to Eligible Directors who fulfill the beneficiary requirements set out in the Procedure for Providing Shares to Officers at a defined time each year in the case of ST payments and at a defined time at the end of each Defined Period in the case of LT payments. Notably, when Eligible Directors satisfy the requirements set out in the Procedure for Providing Shares to Officers, they receive cash payments equivalent to the market value of the Company's shares when they retire from office at a fixed percentage of points.

Reference Policy for determining the details of remuneration, etc. for individual Directors (Draft)

1. Basic policy

The remuneration system for Company Directors is based on shareholders' interests in pursuit of improving corporate value and achieving the long-term, sustainable growth of the Group. When determining remuneration for individual Directors, the level will be commensurate with their responsibilities. Specifically, remuneration comprises basic remuneration for each position, performance-linked remuneration (bonuses) as short-term incentives linked to performance in each fiscal year, and share-based remuneration positioned as a medium- and long-term incentive. However, given that they are tasked with supervisory functions, outside Directors and Audit and Supervisory Committee Members are only paid basic remuneration. With regard to the composition ratio of remuneration, the ratio of short-term and medium- and long-term performance-linked remuneration and the ratio of monetary remuneration and share-based remuneration will be appropriately set to ensure the system functions as a sound incentive.

2. Policy for determining amounts of basic remuneration (monetary remuneration) for individual Directors (including policy for determining the timing and conditions for providing remuneration, etc.)

Basic remuneration for Company Directors comprises monthly fixed remuneration and is determined within the limit of total remuneration for Directors determined by resolution of the General Meeting of Shareholders and in comprehensive consideration of evaluations of each Director's position and execution of duties, the Company's performance, levels of employees' wages, and other factors.

3. Policy for determining the details, and methods of calculating the amounts and numbers, of performance-linked remuneration and non-monetary remuneration, etc. (including policy for determining the timing and conditions of providing remuneration, etc.)

Bonuses—short-term performance-linked remuneration—comprise monetary remuneration within the limit of total remuneration for Directors determined by resolution of the General Meeting of Shareholders, that reflects key performance indicators (KPIs) with the aim of enhancing Directors' awareness of improving performance in each fiscal year, and amounts calculated using defined multipliers will be paid at a defined time each year when consolidated operating profit targets for each fiscal year are achieved.

Regarding share-based remuneration—a medium- and long-term incentive—, the number of shares equivalent to the amount of money calculated based on position multipliers from internal rules will be granted at a defined

time each year and the number of shares equivalent to the amount of money calculated based on achievement of performance indicators and the like in medium-term business plans will be paid at a defined time after the end of the medium-term business plans. The payments will be made through a trust established and within the scope of the amount determined by resolution of the General Meeting of Shareholders. Directors must conclude a share transfer restriction agreement with the Company before receiving the Company's shares. Accordingly, the shares received during the term of office will be restricted from being disposed of by transfer, etc. until retirement.

4. Policy for determining the monetary remuneration, performance-linked remuneration, and non-monetary remuneration, etc. percentages of remuneration, etc. for individual Directors

Percentages of types of remuneration for executive directors are determined in consideration of remuneration levels benchmarked against companies in similar industries and lines of business and of similar scale to the Company.

The Board of Directors (President and Representative Director delegated as described in 5. below) determines the details of remuneration, etc. for individual Directors within the percentages of types of remuneration after seeking consultation and receiving reports from the Nomination and Compensation Committee.

5. Matters relating to determining the details of remuneration, etc. for individual Directors

The specific details of remuneration, etc. for individual Directors are delegated to the President and Representative Director by resolution of the Board of Directors; the details of the authority thereof are evaluated and allocated in response to the amount of basic remuneration, position, and execution of duties of each Director. However, payments for individual Directors are determined after seeking consultation and receiving reports from the Nomination and Compensation Committee and in comprehensive consideration of the Company's performance and other factors.
